

About SBIT

Swarna Bharathi Institute of Science & Technology (SBIT), established in the year 2003 by a group of educationists and philanthropists is a pioneering and the first engineering Institution located in Khammam town. SBIT is one of the very few Institutions permanently affiliated to Jawaharlal Nehru Technological University Hyderabad (JNTUH), Kukatpally, Hyderabad. The college offers both UG & PG courses – B. Tech. (CSE, ECE, EEE, ME & CIVIL), MBA & Diploma. SBIT is unique in having highly technical, experienced and outstanding educationists, having international exposure at the helm of its affairs. SBIT has been recognized under section 2(f) 12(B) of the UGC Act 1956. SBIT has been assessed and found to be in accordance with the requirements of quality standards ISO 9001 – 2015 for all the courses being offered. SBIT is also Accredited by IAO, USA (International Accreditation Organization).

Vision & Mission:

Vision & Mission of SBIT is to develop the Departments of the Institute into full-fledged centers of learning in various fields through innovative pedagogical approaches by incorporating cutting-edge technologies, thus making the Institution, unique of its kind; to foster conscience, proficiency and competency among the students in pursuit of knowledge and achieving excellence; to develop a sense of dignity and commitment among the students in order to attain complete personality and intellectual growth coupled with confidence building; to disseminate holistic education among the students of the Departments through scholarly mentoring and integrated pedagogy for individual and professional excellence; to continuously improve teaching and learning processes for making a successful career either in industry or in higher education either in India or abroad.

About the Conference

Research in Engineering and Technologies has played a vital role in improvising human life to great extent. With the development of instrumentation and computation facilities, research on frontier areas has gone manifold. The discussion on the frontier areas of research in inter-disciplinary subjects has always yielded novel ideas and collaborative research. In view of this, the International Conference on “Recent Trends in Engineering, Materials, Management and Sciences: ICRTEMMS 2018” is meticulously planned to muster innovative ideas from researchers, scientists, academicians, Industry professionals and students. The aim of the conference is to provide a common platform to share and discuss the novel ideas, technologies and research findings to promote interdisciplinary research and to ignite young brains.
